  1. System Requirements
  2. Installation
  3. Uninstallation
  4. Notes

----

1. System Requirements

  1) CPU

     Personal computers with SCSI-2 or USB 1.1/2.0 ports and Intel(R) Pentium(R)
     processors or those compatible with Intel(R) Pentium(R) processors.

     - For more information about how to connect to the computer and other
       requirements, refer to the manual that comes with your scanner.

  2) Operating Systems

     OS that supports ScandAll PRO Lite

     - Windows(R) 2000 Professional operating system (SP4 or later)
     - Windows(R) XP Home Edition operating system (SP2 or later)
     - Windows(R) XP Professional operating system (SP2 or later)
     - Windows(R) XP Professional operating system x64 Edition
     - Windows Server(TM) 2003 R2, Standard Edition
     - Windows Server(TM) 2003 R2, Standard x64 Edition

- Windows Vista(TM) Home Basic (32/64bit)
- Windows Vista(TM) Home Premium (32/64bit)
- Windows Vista(TM) Business (32/64bit)
- Windows Vista(TM) Enterprise (32/64bit)
- Windows Vista(TM) Ultimate (32/64bit)
- Windows Server(TM) 2008 Standard (32/64bit)
- Windows Server(TM) 2008 R2 Standard (64bit)
- Windows(R) 7 Home Premium (32/64bit)
- Windows(R) 7 Professional (32/64bit)
- Windows(R) 7 Enterprise (32/64bit)
- Windows(R) 7 Ultimate (32/64bit)
- Windows(R) 8 (32/64bit)
- Windows(R) 8 Pro (32/64bit)
- Windows(R) 8 Enterprise (32/64bit)
- Windows(R) 8.1 (32/64bit)
- Windows(R) 8.1 Pro (32/64bit)
- Windows(R) 8.1 Enterprise (32/64bit)
- Windows Server(TM) 2012 Standard (64bit)
- Windows Server(TM) 2012 R2 Standard (64bit)
- Windows(R) 10 Home (32/64bit)
- Windows(R) 10 Pro (32/64bit)
- Windows(R) 10 Enterprise (32/64bit)
- Windows(R) 10 Education (32/64bit)

OS that supports linking with Microsoft SharePoint Server

- Windows Server(TM) 2003 R2, Standard Edition
- Windows Server(TM) 2003 R2, Standard x64 Edition
- Windows Server(TM) 2008 Standard (32/64bit)
- Windows Server(TM) 2008 R2 Standard (64bit)

----

2. Installation

 * Be sure to log on as a user with Administrator privileges to install the
   program.

 * When the program is in the provided CD-ROM/CD-R media:
   Follow the instructions given in the startup dialog that appears when the
   CD-ROM/CD-R is started.

 * When the program is obtained via networks (for example, from the website):
   Execute the ScandAllPROLite.exe file; an installation dialog box appears.
   Follow the instructions given in the installation dialog box.

 * When the User Account Control dialog box appears during installation, click

   the [Continue] button.

 * Be sure to select a local folder as the installation folder.

 * Do not install the program directly under the root folder. If the program
   is installed directly under the root folder, it may not work properly.
   Install the program in a folder other than the root folder.

 * Do not use more than 80 characters for the installation path name. If more
   than 80 characters are used, the program may not work properly. Install the
   program in a folder with a path name of 80 or less characters.

 * Do not use the following characters for the installation folder name.
   If any of the characters below is used, the program may not work properly.
     / ; : , . * ? " < > |

----

3. Uninstallation

   * Be sure to log on as a user with Administrator privileges to uninstall the
     program.

   * When the User Account Control dialog box appears during uninstallation,
     perform one of the following:
     - If you are logged on as a user with "administrator" privileges, click the

       [Continue] button.
     - If you are logged on as a user without "administrator" privileges, select
a
       user with "administrator" privileges first, enter the password, and then
       click the [OK] button.

   * Uninstall Microsoft .NET Framework after uninstalling ScandAll PRO Lite.

_____

4. Notes

   1) About the operating environment

      - This software does not guarantee reliable operations if used with Terminal

        Service Client or Remote Desktop Connection Client.

      - To use this software, set the display to High Color or higher mode. If 256

        or less color mode is selected, the display may be incorrect.

      - Depending on the settings of Microsoft(R) Internet Explorer, it may take
        longer to start up ScandAll PRO Lite in an environment where Internet
        connection is unavailable. To get ScandAll PRO Lite started faster,
        clear the [Check for publisher's certificate revodation] checkbox on
        Microsoft(R) Internet Explorer. (Select [Tools]->[Internet Options]->
        [Advanced] tab.)

   2) About supported drivers

      - This software supports Fujitsu fi-series scanners, but users must install
        supported scanner drivers separately.

      - Scanning operations with the WIA driver or ISIS scanner driver are not
        supported. For performing scanning operations, select the FUJITSU TWAIN
        scanner driver.

   3) In the case of using Microsoft SharePoint Server

      - Microsoft SharePoint Server refers to:
          Microsoft Office SharePoint Portal Server 2003
          Microsoft Office SharePoint Server 2007
          Microsoft SharePoint Server 2010

      - On a computer in which Microsoft SharePoint Server is installed, execute
        the "ScandAllPROSrv.exe" file.

      - Before installing this software, install .NET Framework 2.0 or later.
        You can download .NET Framework from the Microsoft Web site.

      - If you execute [Show Desktop] on the Windows taskbar while using
        Web Parts, you may not be able to restore the window(s) to their original
        positions and sizes. So, do not execute [Show Desktop] while you are
        using Web Parts.

   4) About Printing

- Even when [Print in Actual Size] is selected at [Page Format] in
  ScandAll PRO, the printed image differs from the scanned image as the
  print area is subject to the settings of the printer driver.

- Documents may not be printed by the number of copies specified under
  [Copies] depending on the printer driver used.

5) About JPEG2000

- The resolution of image is not indicated correctly if the image is
  JPEG2000-compliant and is created by non-ScandAll PRO Lite applications.

6) Web Parts

- Scanned images will be saved as TIFF file(s) if a file format of
  "Adobe PDF" is specified for the Web Parts template used.

- You cannot configure any of the TWAIN scanner driver's options if
  images have been scanned through a Web Parts site.

- As for images scanned from the flatbed, only one page will be saved even
  if the Web Parts template specified is [Multipage TIFF].

7) Scan Report

- The scan report on the last page is output if mutiple pages of images
  are scanned continuously.

8) About sending scanned images by e-mail

- Your mailing software starts up when you select [Scan] - [To Mail].
  Then, a dialog box for sending by e-mail appears. Before executing this
  command, you must NOT perform any other operation with ScandAll PRO Lite.
  Sending by e-mail may not be successful depending on the mailing software
  you are using.

9) About Image Processing Software Option

- The Scan Report, output by ScandAll PRO Lite, always shows "Black&White"
  at "Color" even when the mode you specified is other than "Black&White"
  for [Image Mode] in the Image Processing Software Option.
