### 1. Use in High-Safety Applications

---

This product has been designed and manufactured on the assumption that it will be used in office, personal, domestic, regular industrial, and general-purpose applications. It has not been designed and manufactured for use in applications (simply called "high-safety applications" from here on) that directly involve danger to life and health when a high degree of safety is required, for example, in the control of nuclear reactions at nuclear power facilities, automatic flight control of aircraft, air traffic control, operation control in mass-transport systems, medical equipment for sustaining life, and missile firing control in weapons systems, and when provisionally the safety in question is not ensured.

The user should use this product with adopting measures for ensuring safety in such high-safety applications. PFU Limited assumes no liability whatsoever for damages arising from use of this product by the user in high-safety applications, and for any claims or compensation for damages by the user or a third party.

---

### 2. System Requirements

---

- Operating systems (\*1)

Windows® 10

Windows Server® 2016

Windows Server® 2019

Windows® 11

Windows Server® 2022

Windows Server® 2025

- Display resolution

1024 x 768 pixels or better (font display size: up to 125%)

- Scanner driver

PaperStream IP (TWAIN) 3.24.0 or later

---

### 3. Notes on Installation

---

- Log on as a user with Administrator privileges and then install this product.
- Install this product after exiting all related applications.
- Do not install this product from a network shared folder.
- An installation may fail if the operating system is being updated with Windows Update or is not restarted after the update with Windows Update.  
Install this product after Windows Update is completed.
- The installation may not be performed properly if an anti-virus program is running.  
In that case, exit the anti-virus program, and then install this product.

-----  
 4. Usage Notes  
 -----

- This product creates PaperStream IP scanning profiles with the settings adjusted to the optimal image quality for OCR.  
Scanning profiles created with this product do not ensure an OCR text recognition rate of 100%. Also, scanning profiles created with this product are not designed for performing OCR on the entire text of a document.

\*1: For the supported operating systems, refer to the manual of the scanner model you are using.
